

## Winterizing Checklist - Exterior

Inspect The Roof:
<ul><li>Check for damaged or missing shingles</li><li>Consider adding ice dam prevention measures if necessary.</li></ul>
Gutters & Downspouts:
<ul><li>Clean gutters of debris to prevent ice dams.</li><li>Consider installing gutter guards.</li></ul>
Windows & Doors:
<ul> <li>Inspect for drafts and seal any gaps with weatherstripping or caulk.</li> <li>Consider adding storm windows or installing plastic film over windows.</li> <li>Check and repair or replace damaged seals and weatherstripping.</li> </ul>
Siding & Exterior Walls:
<ul><li>Inspect for cracks or gaps and seal them with caulk or insulation.</li><li>Consider adding extra insulation if needed.</li></ul>
Foundation:
☐ Inspect for cracks or openings and seal them to prevent drafts.
Chimney & Fireplace:
<ul> <li>Have your chimney inspected and cleaned by a professional.</li> <li>Install a chimney cap to prevent pests and debris from entering.</li> </ul>
Outdoor Faucets & Hoses:
<ul><li>Disconnect hoses and drain outdoor faucets to prevent freezing.</li><li>Consider installing frost-free hose bibs.</li></ul>
Snow Removal Equipment:
☐ Encure you have chavels ice molt and a working chave blower if needed

## Winterizing Checklist - Interior

Schedule a professional HVAC inspection and tune-up. Replace or clean furnace filters.  Fireplace and Wood-Burning Stoves: Clean and inspect chimneys and flues. Stock up on firewood if you use it for heating.  Insulation: Check and add insulation in the attic, walls, and basement if needed.  Smoke and Carbon Monoxide Detectors: Test and replace batteries in smoke and carbon monoxide detectors. Ensure they are working properly.  Plumbing: Insulate exposed pipes to prevent freezing. Consider insulating your water heater.  Doors & Windows: Install draft stoppers or door sweeps. Use heavy curtains or thermal blinds to retain heat.  Caulk and Weatherstripping: Check for drafts around windows and doors and seal any gaps. Inspect electrical outlets and switch plates for drafts.  Thermostat Settings: Adjust your thermostat settings for energy efficiency when you're home and away. Consider upgrading to a programmable thermostat for energy savings.  Emergency Preparation: Assemble an emergency kit with essential supplies. Create a list of emergency numbers, including utility companies, plumbers, and contractors.	Heating System:
